PROFESSIONAL OBJECTIVE

MCA Graduate (2026) with foundational knowledge of Python, Oracle SQL, Power BI, and Excel. Hands-on experience in data cleaning, data transformation, exploratory data analysis, and building interactive dashboards using Python and Power BI. Familiar with SQL databases and data management through academic and personal projects. Detail-oriented and eager to apply analytical and technical skills to support data analysis, reporting, and business decision-making.

TECHNICAL SKILLS

Programming	Python
Database & Querying	Oracle SQL
Data Visualization	Power BI
Data Analysis	Pandas, Data Cleaning, Data Transformation
Spreadsheet	Microsoft Excel, Google Sheets
Database	Oracle
AI & Automation	RAG, LLM APIs, Prompt Engineering
Tools	Git, GitHub, VS Code

EDUCATION

Chetan Business School (CBS) — Institute of Management, IT and Research 2024 – 2026
Master of Computer Applications (MCA) *Hubli, Karnataka*

- Relevant Coursework: Data Structures, DBMS, Operating Systems, Software Engineering, Web Technologies, Operations Research

CN Prakash College 2019 – 2022
B.Com. *Bijapur*

Shantiniketan College 2015 – 2017
PUC *Bijapur*

PROJECTS

Sales Analytics Dashboard 2026
Python, pandas, Power BI

- Cleaned and analyzed the sales dataset using Python and pandas (removed duplicates, handled missing values, fixed date formats).
- Built an interactive Power BI dashboard with KPI cards, filters, and charts showing revenue by region, product, and month.

RepoChat — AI-Powered Repository Chat SaaS (Final Semester Project) 2026
React, Vite, Tailwind CSS, Node.js, Express, MongoDB Atlas, Groq, LangChain.js

- Independently designed and deployed a full-stack RAG SaaS platform that lets developers chat with any GitHub repository through multiple LLM providers (Groq/LLaMA3), with a VS Code-inspired UI (FileExplorer, CodeEditor, ChatWindow panels).
- Deployed the React/Vite frontend on Vercel and the Node.js backend on Render, using scheduled UptimeRobot health checks to eliminate free-tier cold starts and keep response latency low.

Take Your Time (TYT) — Tutoring Marketplace SaaS 2026
React 19, Vite, Tailwind CSS 4, Node.js, Express, MongoDB Atlas, Google OAuth

- Designed and built a two-sided marketplace where students discover and book tutors, with end-to-end Razorpay payment integration.
- Implemented automated booking notifications via Resend (email) and Twilio (SMS), plus Google Calendar sync for tutor availability.

Other Projects

- **AI Smart Lock (2026) —** IoT access-control system combining ESP32-CAM and a PIR sensor with Python/OpenCV face recognition to automate solenoid lock control and send Telegram alerts.

- **Placement Cell Management System (2026) —** Role-based platform (Admin, Student, Placement Staff) for job posting, resume upload, and application approval workflows.
- **3D Car Racing Game (2025) —** Interactive 3D racing game with real-time graphics rendering, built in C and OpenGL.

CERTIFICATIONS & ONLINE COURSES

NoviTech: Data Analytics
Skill Course: Power BI Micro Course
Metvy: Artificial Intelligence & Machine Learning; Full-Stack Development

ACHIEVEMENTS & LANGUAGES

Achievement: Head Coordinator, CHETECH College Event led organization and execution of the college's flagship technical event.
Languages: English (Proficient) | Hindi (Proficient) | Kannada (Native)
